

St Paulinus Construction Club

“Imagination Under Construction...”

Every Thursday lunchtime we hold an amazing Construction Club.

Construction club is a time for the children to be imaginative and free! Children are able to use a range of construction materials, such as Lego, Duplo, Mobilo, art straws, playdough, junk modelling and much much more! Pupils have the chance to work both individually and as part of a team constructing models, towers, structures, storage..... Opportunities are endless! During their time in this club, pupils learn better communication skills, enhance problem-solving techniques, and be challenged in creating awesome builds!
